

# 51.2V 9AH CHARGER (EQP-VOL-C58.4V9A)

Technical specifications

## How to use:

Plug the 51.2V 9AH charger into a 110 or 120v outlet. Attach the clips to your battery ports (black to black and red to red) and you're done! Just wait a few hours and your battery will be fully charged.

## Technical specifications :

Weight :	6.30lbs (2.85kg)
Dimensions :	10.43 po x 5.2 po x 2.68 po (265mm x 132mm x68mm)
Input Voltage :	120VAC 50/60Hz: 7.5A Max (Min 100VAC, Max 264VAC)
Output Voltage :	58.4V DC
Charging current :	9A +-0.9A
Efficiency :	93% min. at rated input and output
Operating temperature :	-29°C to +45.5°C
Storage temperature :	-40°C to +75°C
